

4th edition – October 19, 2025

The fourth edition of the Parours Champêtre is the ideal opportunity for companies from the Greater Montreal to come together, create relationships and strengthen team spirit among colleagues and family at the heart of La Cité de la Biotech in Laval.

As a corporate partner of this event, several packages included in the sponsorship plan allow a significant number of your employees and their family members to participate in the event for free.

Your challenge, your pace, your impact : aim for your personal best and help support the next generation of scientists.

5k timed race

Runners, walkers and families: 1k

By participating in the Parours Champêtre, you will do much more than taking on a personal challenge: you will invest in the future of health research and help improve the lives of millions of people.

For more details, please refer to the sponsorship plan.

WHY PARTICIPATE?

HOW WILL THE COLLECTED FUNDS BE INVESTED ?

For four years the Parcours Champêtre has been more than a simple race. It has been opportunity to contribute to the future of health research by supporting the next generation of scientists.

Through its three previous editions, the event has already made it possible to award scholarships for undergraduate internships, to support two editions of the Apprentis chercheurs program as well as the Armand-Frappier Congress of the Armand-Frappier Santé et Biotechnologie Centre. These funds are also essential for the pursuit of the mission of the Armand-Frappier Foundation.

It is thanks to the generosity of donors that we can ensure the development of public health research as well as concrete and essential advances in our understanding of diseases such as Alzheimer's, Parkinson's, Amyotrophic Lateral Sclerosis, cancer, and many more.

For more details, please refer to the sponsorship plan

Can't take part in our fundraising event?

You can still participate by making a donation today to help cultivate the brilliant minds of tomorrow and directly contribute to the next generation of scientists.
